

FEATURES:

- ⊙ High Efficiency, Saving Energy, Light Weight.
- ⊙ Protect it from corrosion by acid & alkaline liquids, and never get rust.
- ⊙ Highly interchangeability of the parts.
- ⊙ Dynamically balancing for the rotating parts, so the pump may operate smoothly with low noise & vibration.

APPLICATIONS:

- ⊙ Use for cooling water system.
- ⊙ Use for water treatment system.
- ⊙ Use for industrial water pumping system.
- ⊙ Use for agricultural irrigation.

TYPE DESCRIPTION

GPP-60.4-50S
